MSRP US\$150 | €150 | £130

TMA-2 Studio XE is a professional modular studio headphone that allows you to experience your sound with precision and accuracy. Immerse yourself in your music with high sound isolation while staying comfortable during long sessions. Customise, replace and upgrade with the TMA-2 modular system and reduce your environmental impact with carefully selected materials.

Experience your sound with precision and accuracy

Detailed and balanced across the full frequency range with an expansive sound stage via a stiff signature bio-diaphragm and high-grade neodymium magnet.

Immerse yourself in your music

The over-ear PU leather cushion design provides high passive sound isolation from noise in your environment.

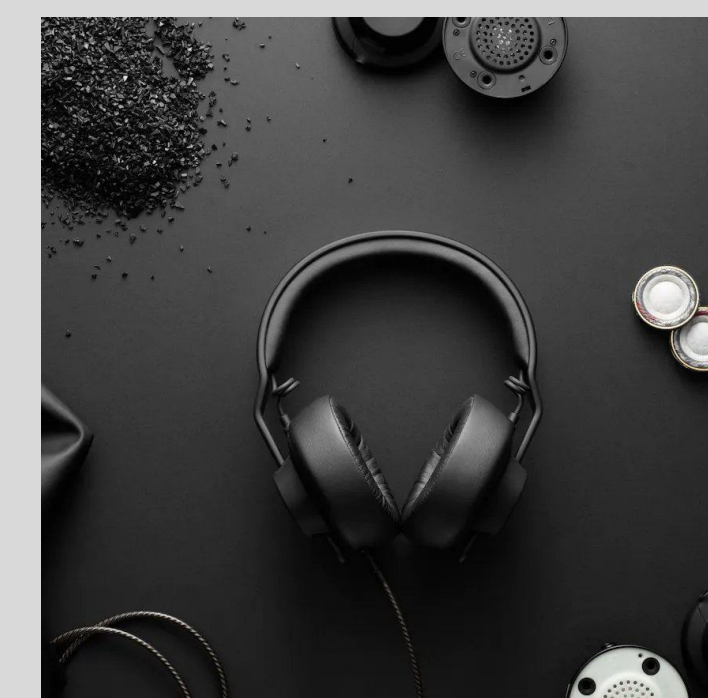

Stay comfortable during long sessions

Over-ear cushions and padded headband using high grade memory foam covered in soft PU leather, for enhanced comfort during long creation sessions or live performances.

Customise, replace and upgrade

The modular nature of TMA-2 Studio XE allows for endless customisation and easy upgrades or replacements of individual parts.

Reduce your environmental impact

Carefully selected materials for durability and sustainability. Speaker units made from 100% recycled plastic.
