TMA-2

DJ

PROFESSIONAL MODULAR DJ HEADPHONES

MSRP US\$200 | €200 | £180

TMA-2 DJ has been put to the test on stages all over the world. With its reinforced headband and powerful bass, it's a specialized piece of equipment for the hardworking musician. The S02 speaker unit uses AIAIAI's signature bio-diaphragm to deliver a punchy and powerful sound, focused on bass detail and low-end dynamics. Combining this with the durable H02 nylon headband and the E02 on-ear PU leather earpads results in a powerful, sturdy headphone with high isolation, suitable for live performance and electronic/bass heavy music.

Powerful punchy bass

Engineered with a 40mm signature bio-cellulose diaphragm to reduce distortion, and designed with an internal vent for a punchy and a powerful sound focused on bass and low-end dynamics.

Bio-diaphragm speaker for enhanced accuracy

Diaphragm precision-grown from bio-cellulose making it stiffer lighter and stronger than regular PET speaker units.

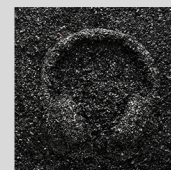

High isolation and intense sound representation

Soft on-ear memory foam cushions covered with PU leather. The thickness and materials provides high isolation and a powerful sound representation. Strong bass and low end dynamics.

Responsible modular headphones – designed to last

Upgrade and expand as technology or needs evolve to extend the functional lifetime of the product and create less waste for the planet.

Responsible materials

We continue to innovate and seek out recycled and better materials. From Alcantara® or vegan leather ear-cushions to our speaker units and packaging made from recycled materials. We contribute by reducing our carbon footprint and create less waste for the planet.

AIAIAI

What's included?

S02 • PUNCHY SOUND – BIO-DIAPHRAGM

Engineered with a 40mm signature bio-cellulose diaphragm to reduce distortion, and designed with an internal vent for a punchy and a powerful sound focused on bass and low-end dynamics.

H02 • RUGGED – HIGH GRADE NYLON

Reinforced headband made from high grade nylon. A durable compression moulded silicone headpad gives a better grip, and the rugged headband is easy to clean.

E02 • ON EAR – PU LEATHER

Soft on-ear memory foam cushion covered with PU leather. The thickness and materials provides high isolation and a powerful sound representation. Strong bass and low end dynamics.

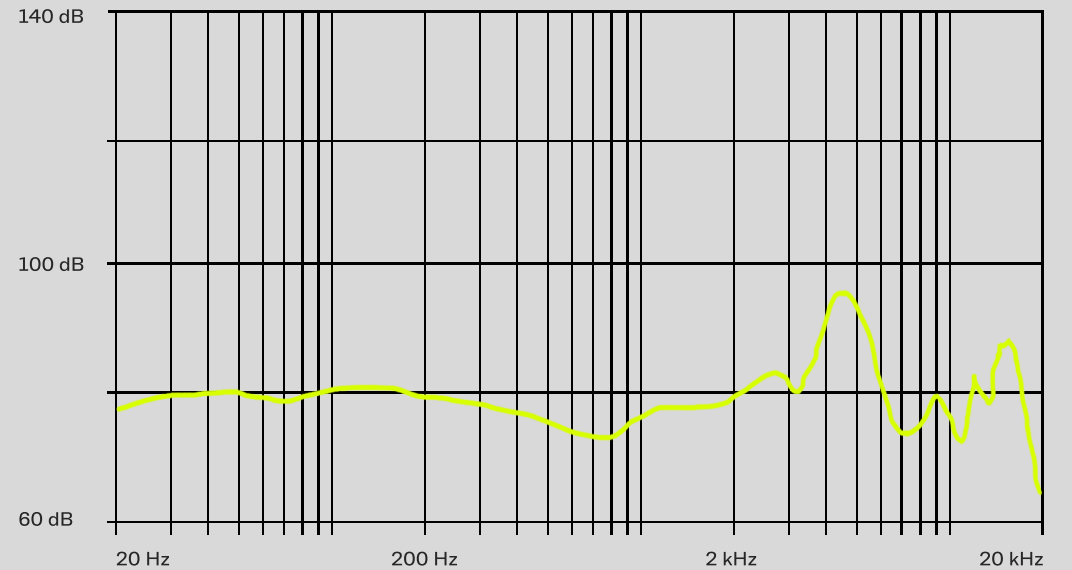

C02 • COILED – 1.5M – ADAPTER

Coiled black 1.5m thermo plastic cable with soft touch surface. Extends up to 3.2m. Perfect for DJing or small studio use. Comes with 1/4 to 1/8 screw-on adapter.

A01 • PROTECTIVE POUCH

Designed to protect your headphones from dust and scratches, the A01 protective pouch is made from soft nylon and features a mesh inside. Fits any TMA-2 and Tracks headphone.

Specifications

Driver diameter
40 mm.

Sensitivity @ 1mW
97 dB.

Resonance
80 Hz.

Impedance
32 Ohm.

Rated power
40 mW.

Max power
100 mW.

Diaphragm material
Bio-cellulose.

Magnet type
High grade Neodymium.
