

PREMIUM POWERED SPEAKERS

TUK

Delivering clarity and performance that put it in a class of its own, TUK is designed to push the limits on what a bookshelf speaker can achieve. Fine-tuned with onboard DSP, its high-performance AMT tweeters and 5.25" aluminum drivers produce sparkling highs and rich bass, bringing life to all your source material. Its active crossover further improves low-end resolution by filtering out sub-80Hz frequencies when connected to a subwoofer. Outfitted with dedicated phono, RCA and Optical TOSLINK inputs, a built-in USB DAC and headphone amp, and Bluetooth 4.2 with aptX HD and AAC codecs, TUK provides the flexibility you need to enjoy all your devices.

FEATURES & SPECIFICATIONS

Tweeters	28 x 35 mm Air Motion Transformer (AMT)	Auto Power Down	Yes (Can be disabled for Always On operation)
Woofers	5.25" Aluminum Concave Cone	Auto Power Up	Yes (Can be disabled)
Amplifier Type	Class D	Input Voltage / Frequency	AC 100V - 240V 50/60 Hz (auto switching)
Analog Input Sensitivity	950 mV	Standby Power Consumption	< 0.5 W
Frequency Response	50 Hz - 20 kHz	Speaker Grille	Included
High/Low Pass Filter	80 Hz (selectable)	Remote	Included
Inputs	Bluetooth® 4.2 aptX™ with Qualcomm® aptX™ HD and AAC codec	Speaker Dimensions	7.0" W x 8.5" D x 10.9" H (17.8 x 21.5 x 27.6 cm)
	1 x USB	Active Speaker Weight	11.1 lb (5.0 kg)
	1 x Optical (TOSLINK)	Passive Speaker Weight	9.9 lb (4.5 kg)
	1 x RCA	Shipping box dimensions	20.6" x 12.3" x 14.2" (52.2 x 31.2 x 36.1 cm)
	1 x RCA with Dedicated Phone Pre-amp		
Outputs	1 x Subwoofer Out		
	1 x USB Charge 5V 2A		
	1 x 3.5 mm Headphone Out		
Power Output	260W Peak Power (130W Total RMS)		
Max USB Bit Depth / Sample Rate	24-bit / 96 kHz		

MATTE WHITE

MATTE BLACK

AMT TWEETERS

TUK utilizes high-performance AMT tweeters to deliver brighter, more accurate highs. Their wide horizontal dispersion also offers improved stereo imaging and soundstage.

ALUMINUM DRIVERS

Due to their high rigidity and low mass, TUK's aluminum drivers operate at optimal efficiency while reducing distortion at higher volumes.

DSP CONTROLLED

TUK features integrated digital signal processing (DSP), designed to optimize audio quality and provide greater accuracy in sound reproduction.

ADVANCED CONNECTIVITY

Along with Optical and RCA inputs, TUK includes an independent phono input for your turntable, a USB DAC, a dedicated headphone amp, and Bluetooth 4.2 with aptX HD and AAC codecs for high fidelity streaming.

ACTIVE CROSSOVER

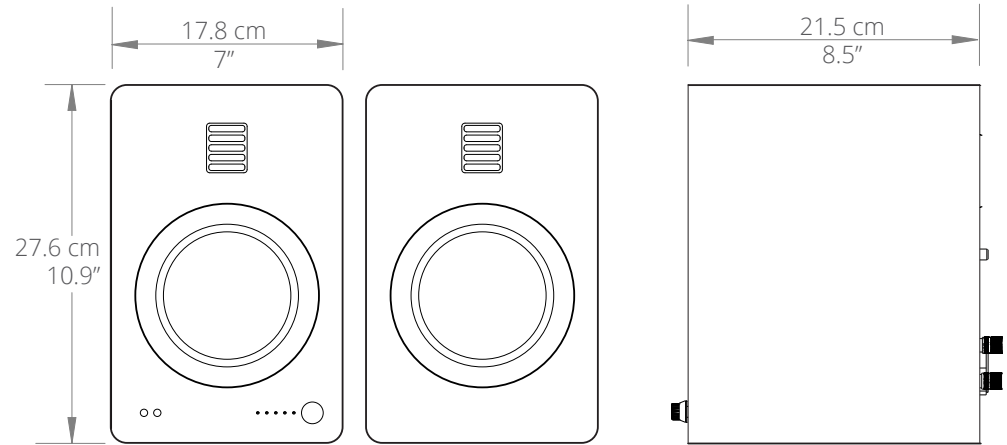

When enabled, TUK's active crossover filters out frequencies below 80Hz and sends them directly to a connected subwoofer. Off-loading this portion of the frequency range further improves resolution while reducing distortion.

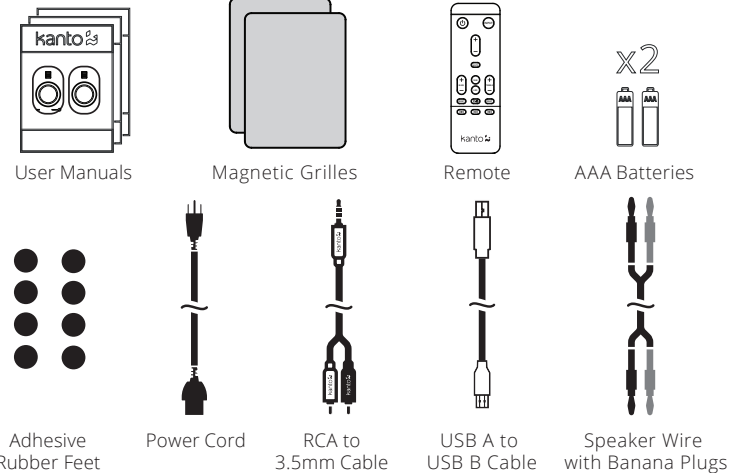

FULL CONTROL

Packed with functionality, TUK's remote allows you to make quick input, volume, tone and balance adjustments, as well as control playback when streaming via Bluetooth®.
