UNIVERSAL ALUMINIUM PICKFOAM CASE XL SILVER

U93013SL

We, at UDG have further fined-tuned already a great design concept of our flight case into one specially for the most discerning DJ/producer. Constructed from aluminium provides an extremely stable structure with lighter weight than traditional flight cases. The inner sides are protected with the pick & pluck foam consists of two separate layers that allows to create individual adapted compartments. The pick & pluck foam allow you to pluck out any desired shape you require for various-sized DJ-controllers and providing the additional option to create another slot underneath the controller for laptop or cable storage. This pick & pluck foam creating an easy, do-it-yourself system for case interiors.

The UDG Ultimate Universal Aluminium Pickfoam Cases are designed to keep your gear protected from accidental damage when you transport it to and from gigs. They're compact and lightweight yet tough enough to keep your gear safe.
